Functional design for every room

You have probably heard of the saying "Design follows function", sometimes ironically changed to "Function follows design".

Where the FN acoustic panels are concerned, none follows the other. Here, design and function are matched precisely, creating a design element with a double impressive effect for every room. And it gets even better – this shapely, functional product is also sustainable.

Fields of application:

In private surroundings:

- Living room – perfect for your office at home
- Hall stand and hallway
- Bedroom
- Children's room
- Music room
- Dining room
- Bathroom
- Weather protected outdoor area

In professional surroundings:

- Hotel business/catering trade
- Service providers/waiting rooms
- Canteens
- Offices
- Decorative shop design
- Showrooms

Acoustic panels

Individual profiles

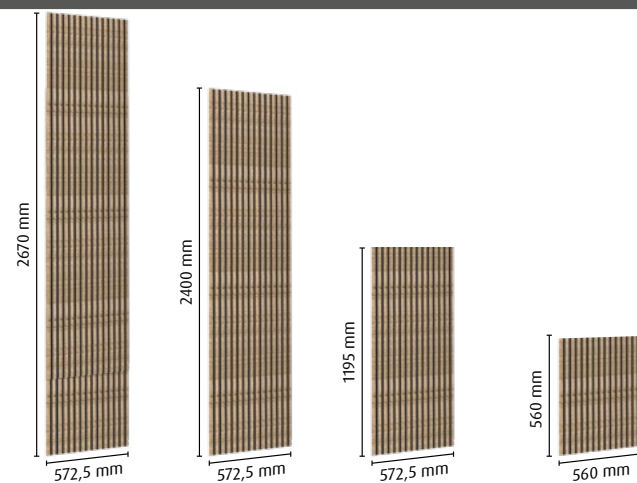

Basic profile for height compensation

Thickness 19 mm:

>>> 572,5 x 2670 mm
 >>> 572,5 x 2400 mm
 >>> 572,5 x 1195 mm
 >>> 560 x 560 mm

Thickness 11 mm:

>>> 292,5 x 2670 mm

Many different décors in stock
 and countless possibilities on request
 thanks to our in-house digital printing

Base material: Consisting of PET fibres with a
recycling rate of up to 60%
 (recycled PET bottles)

2 different surfaces >>> folied
 >>> veneered

Sound insulation: Reduces noise by up to 25%
 Weighted noise absorption coefficient: $\alpha_w = 0.25$
 Tested in accordance with EN ISO 354 and EN ISO 11654.
 With a sub-structure of approx. 10 cm 3-15/16", soundpro-
 ofing is increased to 60%: $\alpha_w = 0.60$.

Basic Profile

Extend the acoustic plates by up to 20 cm

For room heights of 250 cm and 260 cm, basic profiles have been designed which make installation of the panels easier, since they are installed directly on the profile previously mounted.

- Advantages:**
- Height compensation to room height
 - Facilitates cleaning in the base area
 - Elegant end profile

Waterproof

Base material:
Consisting of PET fibres with a **recycling rate of up to 60%** (recycled PET bottles)

Waterproof Slats

For damp rooms and protected outdoor areas: The design of the panels made of pure plastic components (PET felt, lamella base material and surface) allows them to be used in bathrooms and other areas with a lot of moisture, and the panels can also be installed in weather-protected outdoor areas. Sufficient ventilation must be ensured.

Sound insulation: Reduces noise by up to 25%
Weighted noise absorption coefficient: $\alpha_w = 0.25$
Tested in accordance with EN ISO 354 and EN ISO 11654.
With a sub-structure of approx. 10 cm, soundproofing is increased to 60%: $\alpha_w = 0.60$.

FN ACUSTICO GLUE

With the right adhesive, mounting the panels is very quick and easy. To secure the panel to the wall, it should still be screwed on at the top with 2 screws. Package contents approx. 400 g / 300 ml - good for 1-2 panels.

FN ACUSTICO SCREW

Black screws for black felt, grey screws for grey felt, so the screws on the felt are almost invisible and the panels are securely fixed to the wall. You will then need to provide your own wall plugs, depending on the condition of the wall.

FN ACUSTICO
Fastening

Silver screws with coloured head,
50 pcs./pkg.

RAL 7047

RAL 9011
